EDUCATION

02/2023 – 06/2027
Addis Ababa

Electrical And Computer Engineering

Addis Ababa University 

Addis Ababa University (AAU) is Ethiopia's oldest and largest flagship research university, widely considered the premier institution of higher learning in the country. In the 2020–2021 Center for World University Rankings (CWUR), AAU was placed second in Eastern Africa.

01/2025 – present
Addis Ababa , Ethiopia

Africa to Silicon Valley, Data structure and Algorithms, and Software Development

A2SV (backed by **Google**) is a non-profit tech academy and incubator that has trained over **1000** software developers. In the past six years, more than **100+** graduates have secured full-time or internship positions at top tech companies, including Google, Amazon, LinkedIn, Bloomberg, and Databricks.

- completed 6 months long intensive data structure and algorithms course solving **500+** problems on Leetcode  and Codeforces  consistently for **200+** days.
- Completed a 2-month intensive Mobile Development course, mastering **Flutter** and Clean Architecture to build scalable and efficient mobile apps

11/2024 – Present
Remote

Computer Science

University of People 

is a pioneer in remote higher education, accredited by the Distance Education Accrediting Commission (DEAC) and recognized by the U.S. Department of Education.

PROFESSIONAL EXPERIENCE

01/2025
Addis Ababa

Software Engineering Trainee

A2SV 

- Solved 500+ algorithmic problems on platforms like LeetCode and Codeforces, improving problem-solving speed and depth.
- Worked alongside mobile, web, and backend teams to develop **JobGen**, a full-stack job-matching platform. Contributed to the mobile interface using Flutter while integrating seamlessly with React and Node.js components built by other teams.

10/2025 – 11/2025
AddisAbaba

Mobile developer intern at DevTech

DevTech 

Accepted into a selective internship focused on practical software development, and built a to-do app and a quizClash app [quiz and games] using Baas technologies, emphasizing clean architecture, many features and real-world deployment workflows

12/2025 – Present
Addis Ababa

Football Vision Internship

4Kilo Computer science dept

- Collaborating with data and backend teams to build a player-tracking system. Processing CSV/JSON datasets to extract movement and performance metrics. Contributing to visualization and analysis tools that turn raw tracking data into actionable insights for coaches and analysts.

SKILLS

Mobile Development

- Flutter , React-Native State Management (Bloc) and Widget Testing

Web development

- React.js, Tailwind CSS , TypeScript, Next.js

Algorithms and Problem Solving

- DSA, leetcode, codeforces, Competitive Programming

Tools and Workflow

- Git & GitHub, VS Code, Figma, REST APIs, WebSocket, Firebase, Supabase Testing (Unit, Integration, Widget), Mocking, Debugging

Back end Development

Node.js, Express, GoLang
